[CFP] 2nd International Workshop on Virtual, Augmented and Mixed Reality for Human-Robot Interaction

Collocated with HRI 2019, Daegu/Korea

At VAM-HRI we seek to bring together HRI, Robotics, Artificial Intelligence, and Mixed Reality researchers to identify challenges in mixed reality interactions between humans and robots. VAM-HRI was held for the first time at HRI 2018, where it served as the first workshop of its kind at an academic AI or Robotics conference, and served as a timely call to arms to the academic community in response to the promise of this emerging field. VAM-HRI 2019 is looking to follow on the success of last year's workshop and present new opportunities for expanding this nascent research community.

Submission Instructions

FULL PAPERS:
6-8 page papers presenting novel work.

EXTENDED ABSTRACTS:
2-4 page papers presenting previous, current, or proposed work.

Submit here → https://easychair.org/conferences/?conf=vamhri2019

Papers will undergo mutual review; as such, authors of submitted papers will be expected to provide a small number of reviews for fellow authors. All accepted papers will be accompanied by talks and/or poster presentations and will be archived on the workshop website.

SUBMISSIONS DEADLINE: January 15th, 2019

NOTIFICATION OF ACCEPTANCE/REJECTION: January 30th, 2019

Organizing Team

Tom Williams Mines
Dan Szafir CU Boulder
Tathagata Chakraborti ASU · IBM
Elizabeth Phillips USAFA
